

Original Bavarian base and speciality malts since 1856

IREKS Crystal Maple

Colour:	3 - 6 EBC
Lovibond:	1.6 - 2.7
Type of beer:	Pilsner, Lager, light beers
% of the grist:	3 - 10

Description/Application:

The lightest of the IREKS crystal malts serves to increase the foam stability and to raise the full-bodied taste of very light beers, without influencing the colour of the beer.

Production:

Green malt saccharified, caramelized and gently dried on the kiln floor.

Standard specification:

			Method*
Extract, dry matter	> 79	%	R-205.01.080 [2016-03]
Moisture Content	< 6	%	R-200.18.220 [2016-03]
Wort Colour	3 - 6	EBC	R-205.07.731 [2016-03]
Protein Content, dry matter	< 13.5	%	R-200.20.030 [2016-03]
pH-value	5.6 - 6.1		R-205.06.040 [2016-03]

*Analysis method according to MEBAK, Raw Materials, 2016

Brewing grain is a natural product and is subject to qualitative fluctuations which can have an effect on the specification values listed.
